

**S.P.M's Nabira Mahavidyalaya Katol.**  
**(Arts, Science and Commerce)**  
**(Internal Quality Assurance Cell)**  
**Course Outcomes (2017-2018)**

**P.G. PROGRAM OUTCOME**

**MASTER OF COMMERCE (M. Com.)**

- The post graduate program provides the students advanced knowledge in the field of business and management. It also enables the students to acquire the basic skills required for carrying out business activities, research, stock market operations, accounting practices, etc. The program also provides them with enough knowledge and skill to provide consultancy services in finance and marketing. Students can appear for NET, SET, and other competitive examinations of their choice.
- To comprehend the concepts of co-operation and co-operative movements.
- To acquire the knowledge about market, marketing information system.
- To learn the basic management concepts and process.
- To get the knowledge about the modern trends in the management.
- To apply the techniques of micro and macro-economics for decision making in job/business. f. To understand the concepts and procedures in cost accounting system and make use of expert knowledge of costing data for decision making and control.
- To acquire research skills.

**PROGRAMME OUTCOME–MASTER OF SCIENCE (M.Sc.)**

- MSc degree program translates to making a significant investment in one's professional career. a) To the enhanced career prospects that can be gained by taking a Master of Science.
- b) Valuable personal skills and fulfil a crucial prerequisite to PhD study.
- c) Candidates normally have to do independent research and present a thesis as requirement for graduation.
- d) An understanding of professional, ethical, legal, security and social issues and responsibilities.

**PROGRAMME OUTCOME-M.SC. CHEMISTRY**

- Gains complete knowledge about all fundamental aspects of all the elements of chemist.
- Understands the background of organic reaction mechanisms, complex chemical structures, and instrumental method of chemical analysis, molecular rearrangements and separation technique.
- Gathers attention about the physical aspects of atomic structure, dual behaviour, reaction pathways with respect to time, various energy transformations, molecular assembly in Nano level, significance of electrochemistry, molecular segregation using their symmetry.

- Carry out experiments in the area of organic analysis, estimation, separation, derivative process, inorganic semi micro analysis, preparation, conductometric and potentiometric
- Think critically and can analyse chemical problems.
- Present scientific and technical information resulting from laboratory experimentation in both written and oral formats.
- Work effectively and safely in a laboratory environment.
- Use technologies / instrumentation to gather and analyse data.
- Work in teams as well as independently.
- Apply modern methods of analysis to chemical system in a laboratory setting.

#### **PROGRAMME OUTCOME- M.SC. MATHEMATICS**

- It inculcates the discipline, punctuality and well organization among the students.
- It enables to think critically and design complex and critical financial models for Bank and Insurance Companies.
- Students will be able to make critical observations
- To recognize and differentiate among diverse cultures through the history of mathematics.
- It enables to apply analytical and theoretical skills to model and solve mathematical problems.
- It enables to analyze data and draw appropriate statistical conclusions.
- It develops the mathematical logic which is very useful for solving mathematical reasoning problems in all competitive examinations.

#### **PROGRAMME OUTCOME-MASTER OF ARTS (M.A.)**

- The students acquire in depth knowledge in the field of social sciences, literature and humanities which make them sensitive and sensible enough to solve the issues related with mankind.
- The postgraduates will be acquainted with the social, economical, historical, geographical, political, ideological and philosophical tradition and thinking of their respective subjects.
- The program also empowers the post-graduates to appear for various competitive examinations or choose the any post graduate or research programme of their choice.
- The M. A. program enables the students to acquire the knowledge with human values framing the base to deal with various problems in life with courage and humanity.
- Students can discuss the costs and causes of unemployment, and assess public policies to ameliorate it.
- To face any competitive exam like M.P.S.C., U.P.S.C., I.B.P.S., P.O., I.F.S. etc 2. To determine economic variables including inflation, unemployment, poverty of India, G.D.P., Balance of payments using statistical methods.

#### **PROGRAM OUTCOME-Master of Business Management (MBA)**

- The students of MBA will possess the required domain knowledge across all functional disciplines of management.
- The MBA students will be able to demonstrate managerial skills and abilities.
- The students of MBA will be able to understand the business environment by analytical and critical thinking.
- The MBA students will have the ability to demonstrate professional behavior in their jobs / entrepreneurship along with values.
