Principal  
Nabira Mahavidyalaya,  
Katol

## **7.2**

# **Best Practice**

### **7.2.1**

**Two best practices successfully implemented by the Institution.**

## BEST PRACTICE: 1

**Title:** To create environmental awareness amongst student, staff and society.

**Goal:** To inculcate environmental awareness among the students and to make them understand their individual responsibility in saving the environment and mother earth.

**Context:** An environment is a natural space in which both living things and inanimate objects coexist and converse. One of the primary challenges confronting the world in which we live today is environmental health. Day to day human activities including rampant cutting of trees have impacted our environment in more than one way. Climate change, smog, water pollution, and soil degradation have become everyday life challenges. With all of this in mind, the college started a variety of initiatives to educate staff members and students about the value of environmental preservation.

**Practice:** The College strongly promotes eco-friendly work culture and lifestyle, and encourages environmental conservation to fullest extent possible. The college practices energy conservation, solar energy, water management, vermicomposting and various other eco-friendly measures. The College is a polythene free campus. Every bit of paper is used to the maximum before it is recycled as a 'Paper Seed' or discarded. They also do seeds ball preparation program. Department of Botany runs these programs as their department's best practice. The students of the college are made aware of the practices at the very beginning of the session. In the session 2021-220 various programmes were organised online/offline to reinforce and strengthen the environmental consciousness among the students. Some of the programmes organised during the session include World Environment Day celebration, Majhi Vasundhara Abhiyan, Nest building workshop, Swachha Bharat Abhiyan, etc.

**Evidences of success:**

The Following programs/competitions conducted by the college to create environment awareness among the students evoked a good response. In some of the competitions students from different colleges have also participated.

Sr. No.	Title of the program	Program Type	Department conducting the program
1	Seed Ball Preparation	Department Best Practice	Botany
2	Seed Paper Preparation	Department Best Practice	Botany
3	Conservation & re-introduction of endangered plants species in to ecosystem	Department Best Practice	Botany
4	Certificate Course in Plant Tissue Culture Techniques	Department Best Practice	Botany
5	World Environment Day – 2022 Quiz	Social Awareness Online MCQ Quiz	Botany
6	World Environment Day – 2022 Webinar	Webinar	Botany
7	Nest Building Workshop	Workshop	Botany & Zoology
8	Cleanliness Campaign (Inside the Campus)	Program Under Swachh Bharat Abhiyan Mission	NCC & NSS
9	Mazi Vasundhara	Tree Plantation Campaign	NSS
10	Best from e-waste	Department Best Practice	Computer Science

**Problems Encountered and Resources Required:** The problems of time constraints and not compromising on the teaching-learning process were encountered.

To create environmental awareness amongst student, staff and society.

## BEST PRACTICE: 2

**Title:** Community Outreach.

**Goal:** To reach out for all the parts of the community and educate them regarding our environment, education, health and all possible aspects of life. We not only want to create healthy students but we also want to create healthy society.

**Context:** Community outreach refers to the process of engaging and building relationships with individuals and groups in a community. The purpose of community outreach is to improve communication, collaboration, and understanding between organizations, businesses, and community members.

**Practice:** The College strongly promotes all those activities which are related to community and its wellbeing. The benefits of community outreach are numerous. By building relationships with community members, organizations and businesses can gain valuable insights into the needs and concerns of the community. This can help them develop programs and services that better serve the community. Additionally, community outreach can improve trust and collaboration between organizations and community members, leading to a stronger, more resilient community. Students are the best commute to reach out the society because they are the part and future building blocks of the community.

**Evidences of success:**

The Following programs/competitions conducted by the college to create awareness in students and society people. In some of the competitions students from different colleges have also participated.

<b>Sr. No.</b>	<b>Title of the program</b>	<b>Program Type</b>	<b>Department conducting the program</b>
