

## The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:

1. Teachers are asked to submit Teaching plan for the academic session.
2. Teachers are asked to complete the prescribed courses. They are inspired to engage extra classes for the purpose.
3. IQAC also sees whether the work diary is written regularly or not.
4. Teachers are encouraged to use modern teaching aids and tools like PPT, computers and internet.
5. They are motivated to hold group discussion in the class.
6. Teachers are encouraged to take regular unit tests and pre university examination.
7. Departments are motivated to organize guest lectures.

## **Part B**

### **Annexure 7.3 : Two Best Practices of the institution in the format of NAAC Self-study Manuals**

#### **Best Practice (i)**

##### **Title of the Practice**

“Earning with learning” Scheme

##### **Goal**

Financial support to needy skilled students

##### **The Context**

More than 80% of our students come from poor background. It is difficult for them to pay the fees even in grant-in-aid courses. Few skilled students with untapped talent is utilized by the college with a purpose to help them in continuing their education and even contribute something to their family.

##### **The Practice**

Awareness is created and students are informed by notices, announcements of teachers in classrooms, during admissions that few students can be accommodated in such schemes run by the college. Later the students contact the coordinator of the scheme who in turn selects the students and assigns him some work in consultation with the Principal.

##### **Evidence of Success**

Few such students can be interviewed who are currently doing PG in our own college. Such students could complete their education which otherwise could not have been possible.

##### **The problems encountered and resources required**

Identifying such students was a challenge. There were no resources required for the same.

##### **Notes**

Students worked for 230 hours and the total remuneration paid to them was Rs.4,600 @ Rs.20 per hour.

**Best Practice (ii) Title of the Practice**

“Computer Literacy Program”

**Goal**

- To inculcate interest for knowledge of handling computer among students.
- To create ability in students to initiate a task and taking it to a meaningful finality.

**The Context**

In this modern era where everything is heading towards digitalization, we at this institution feel that our students too go ahead in this field. Therefore, they have got to be well versed with IT, hence this programme continues. Though this program is not a part of the syllabus yet benefit of majority is our priority. A separate hall about 1200 sq. ft. with centralized air cooling system with 60 computers with printers and scanner is dedicated for this program. It has all the additional teaching aids required viz. White Board, LCD projector, etc. along with internet connectivity.

**The Practice**

At the time of admission, it is mandatory for every student to enroll for this program. It is almost compulsory for all the students of UG/PG and Junior college to join this program at a nominal fee of Rs. 500 per annum. Batches are formed separately for Junior and Senior college and there are 60 students in each batch. The batches are formed in such a way that the regular classes are not disturbed. Classes are held regularly and the topics covered are MS Office 2007, HTML, TALLY, DTP (page maker, photo shop, coral draw). A certificate is awarded to all the successful students.

**Evidence of Success**

Our students are efficient in handling the basic functions of the computer and associated hardware. They are skilled in the MS Office package viz. word, PPT and Excel. Some students do part time jobs in DTP centers and Printing presses.

**The problems encountered and resources required**

At times we face hardship to convince students the benefit of the knowledge who are unwilling to pay Rs. 500/-. In such condition we give them installment facility or arrange some kind of help or scholarship. To maintain and upgrade the computer lab, the amount received as fee is sufficient.

Notes

More than 500 students are benefited by this scheme.
